

## **Muriel Green Nursery School and Day Care**

# **Equalities Statement**

Muriel Green Nursery School and Day Care is an inclusive setting welcoming every single child and their family. We believe in providing for the individual needs of all children. We will be flexible and adaptable enabling them to feel safe and secure in a stimulating, caring and diverse environment.

All children, parents and families will be members of our school community and we will look to the wider community of St Albans and beyond to meet the needs of children as they experience life in a diverse and changing world. We will listen to families enabling us to respond to their needs and aim to meet their expectations.

Staff will be members of the community and all will have opportunities to develop excellent professional skills to educate and care for every single child with an ever strengthening knowledge of how children learn and develop, and also with patience, tolerance and understanding of their experiences and backgrounds .
